

**COLORADO RIFLE ELK HUNTS WITH HIGH SUCCESS\$3095!**

**Hunt #PALMOF**

About 10 days ago we told all our clients about a special Elk Depredation Hunt in Southern Colorado. We had hunts for both July and August at some very special prices (July- \$2595; August \$3095) . Although we have a few hunts left for July 18-24, the rest sold quickly. Very quickly in fact.

So we went back to our outfitter who had the depredation hunts, and did some serious talking. Mainly our questions were devoted at finding out if he could wrangle some bull and/or cow tags for October and November. After a bit of effort, he came back with a firm YES. Now that

was exciting, but could he tell us whether or not the valley of the elk depredations would continue to produce bulls at a high success rate in October and November? That one was a slam dunk! He said, in fact, there will be more bulls and more elk visible in October! Bulls come down from the mountains to rut. He talked of seeing as many as several hundred head in one day! And the bulls are out of velvet, screaming and hard horned!! With some horse trading, we finally got him to agree to honor the August price of \$3095 for a full 5 day rifle bull hunt!! And we again expect success close to 100% based on discussions with him. And the hunt will continue to be a relatively easy hunt, mainly hunting from pickups on ranch roads.

**WE HAVE ONLY A TOTAL OF 8 OF THESE HUNTS FOR OCTOBER! Oct 3-9; and 10-16. Four hunters per date!**

Again- this a rifle bull hunt!! The first 8 guys to book are going! And we still have 3 openings for July 18-24 at only \$2595!! (Perfect for the student ! ) We may even be able to put together some cow and bull hunts for November.

Just to freshen up your memories, here is the info on this hunt:

Right now, the elk are simply decimating the valley ranches and Colorado Division

of Wildlife is desperate to reduce the huge elk population in the valley. DOW's stated goal is Zero elk on the floor of the valley- impossible given the herd is nearly 3000 animals, but that is what they want to achieve. Right now, in the fields and alfalfa, are herds of bulls and cows, placidly munching a fortune in hay and crops, all of which damage the DOW must reimburse the ranchers for! And by October there will be even more elk!! So they have issued the ranchers depredation tags. This outfitter will take you onto these private ranches. You can reasonably expect 100% shooting opportunity on bulls 4X4, 5X5 and some 6X6. OUTFITTER WAS 100% LAST YEAR. Two clients took 320 class bulls last year. Do not count on that size though.

**AND A BULL OR COW TAKEN HERE ON A DEPREDATION PERMIT DOES NOT AFFECT YOUR RIGHT TO ANY OTHER COLORADO LICENSES FOR ELK! So if you have another hunt booked for elk in Colorado- no problem!**

Most of these Colorado bulls will be 5X5's or so, some 4X4's but a few will be 6X6's, and in fact the outfitter just saw one a few nights ago. This will be a physically easy hunt, suitable for anyone, of any age, and in almost any physical condition from great to poor. From kids to seniors, come shoot your bull! You will see a lot of game and it will be largely undisturbed. Outfitter will guide you and retrieve your game. It is possible to take a huge bull here, but we think expecting a 5X5 approximately is a reasonable expectation. Most of the elk will be highly visible and you will stalk them for your shots. We suspect shots will have a chance of being fairly long, so bring a bipod or shooting sticks, and be prepared to shoot to 300 yards or a bit

more accurately!

This 100,000 acres is at about 8,000 feet in elevation and consists of plains, small rolling hills, alfalfa, hay fields, willow trees, tall swale grass, and chico brush that provides shelter. Last year the outfitter had a 100% harvest success rate. The landowner voucher is included in the hunt price. You will just need to purchase a Colorado bull elk license @ \$544 for a non-resident (Only \$49 for a resident) and a \$10 habitat stamp.

Hunts are guided with up to 2 hunters per guide, assuming two people are present to hunt. Hunt is 4 days long, but should take less! Lodging is included, but not meals ( restaurants available within 10 to 25 minutes). Fly to either Denver or Colorado Springs and rent a car.

**BULL ELK ---JULY HUNTS--- THE PRICE IS AN UNBELIEVABLE \$2595!!!!  
OCTOBER BULL ELK HUNTS (ARRIVE ON SUN/DEPART SAT).  
\$3095!!!!!!!!!!!!!!**

Also prairie dog hunting and fishing is available for only \$50 per day if you tag out early on the summer hunts!
