This river/mountain area is overrun with bears and Idaho Game and Fish are allowing two bears to be harvested in spring. And they are almost giving the bear tags away at under \$35 per tag!! This baited hunt is one that a group of guys could drive in a long day to from much of the US and the West Coast. It is in the Selway Bitterroot country of Central Idaho . If you are flying out, then you can fly either to Missoula , Montana and rent a car for a 2 ½ hour drive, or to Spokane for a 4 ½ hour drive. Better airfares typically are into Spokane . These hunts are fully guided. We have sent many clients on this hunt. You hunt afternoons over bait. Because you normally may not get back to camp before 9 or 10 at night, morning is a rest or fishing time. The outfitter has been in business for over 20 years and you most likely have seen his hunts featured numerous times on big name TV hunting shows. WE have hunted with him. He hunts along the Lochsa River out of a series of cabins and a base lodge located there. **DATES: April thru mid June.**
